New Item! E-Books

Our library collection now includes a number of eBooks that can be accessed on the Internet and read online.

In addition to using an ebook on a single computer, this is an excellent application for the SmartBoard™. Bring the book up on the board and the class can read along as you read aloud – no struggling to see the pictures anymore! This also works great for choral reading activities. Each title has different features, some read text, and others are interactive.

To view the books, go to:

- BG's Library Catalog <http://tinyurl.com/bgcatalog>
- Select Birch Grove
- Under Digit Reading Resources click on ***FollettShelf eBooks***
(You can also bookmark: <http://wbb48059.follettshef.com> and it will take you right there!)
- Login (Upper right-hand corner)

User Name: bgpguest Password: 06084

- Click on the title you wish to view and click *OPEN**
(The first time you do this on a computer you may have to click the blue or yellow toolbar and select "Always allow popups from this site." You may need to select your title again after that.)
- Your book should be in front of you on the screen!

(*It suggests that you check out the book. You do not need to do that, we have unlimited access on most titles.)

When you are done, please make sure to select the "Close Book" option and logout.

Please let me know whether you like the e-book option, including what works and what doesn't work for you. It will help me in my future purchasing decisions.

If you have any questions or need help opening a book for the first time, just let me know.
